TO THE CITIZENS OF BUFFALO.

In presenting the Sixth Volume of the Buffalo Directory to the Public, I have laboured under difficulties which in Volumes preceding the present one, did not present themselves.

On the opening of navigation, I contemplated the publication of this work, and intended to commence its compilation on the first day of May, or as soon after as practicable ;—but in consequence of the gloom which hung over the affairs of business and enterprise, I was forced to defer its publication for a period longer than I had previously anticipated, in hopes that business would renew its wonted activity, before I could consistently embark in an undertaking accompanied with so much risk and uncertainty. Of cities which have experienced the prevailing stagnation in business and commerce, Buffalo above all others, for a place of its size and importance, has severely felt the shock, and its prosperity has been more or less retarded by its influence. The derangements in the currency and other financial facilities has had a detrimental effect to the City, its circulating medium being composed chiefly of Western, or far-fetched Eastern paper, a great quantity of which is worthless, and a far greater quantity if received at all by our Merchants and other business men, is with a great deal of caution and suspicion.

But during all the evils which have taken place in consequence of derangement in our financial affairs, Buffalo has prospered and will continue to prosper so long as Emigration continues, and the go-ahead system of the American people propels them onward to usefulness and enterprise.

Another circumstance which has materially impeded the progress of the present Volume, is the absence of the individual who I had previously engaged to take the names and arrange the matter for the press. In consequence of his absence, I was necessarily compelled to employ another person who was totally unacquainted with the business, and who, as a matter of course, would require much more time than the previous one employed, in order to arrange and complete what the public have a right to expect, to wit: an accurate and correct directory. Great pains have been taken in arranging the matter for the present Volume, to have every person's name inserted, together with his business and his place of doing Business.

Under these circumstances is the work issued. If it is found to conduce to the interests of the City of Buffalo, those who are moving in her golden prosperity cannot better subserve their own and more fittingly evince their regard for every effort, however diminutive, which has for its object the greatest general good.

The publication of the Buffalo Directory is not a source of profit to its Author; all works which have preceded the present Volume, have been an actual loss. All that is asked from the Citizens then, is, to extend sufficient patronage to the undertaking, to pay for the Printing and Materials, and I shall consider myself well repaid, with the consciousness of having attempted something to promote the interest of my native City.

LEONARD P. CRARY.

GENERAL VIEW.

The ground on which the City of Buffalo now stands, was laid out in 1801, by the agents of the owners known as the HOLLAND COMPANY. It was then called and known as the *Village of New Amsterdam*.

1813, APRIL 2.—The village of Buffalo was incorporated by the name and style of the Trustees of the village of Buffalo. *Eli Hart, Zenas W. Barker, Ebenezer Walden, Oliver Forward and Cyrenius Chapin* were constituted Trustees for the first year—commencing on the first Monday in that year.

The Election of Officers to be on the first Monday in May, in every year thereafter.

1815, APRIL 4.—The inhabitants of Buffalo not having been informed of the passing of the act of incorporation, until the time of the *first Election* had elapsed, the act of 1813 was revised, and new trustees thereby appointed.

1816, APRIL 5.—The act of 1813 again revised by statute, and new trustees appointed as before.

1822, APRIL 17.—A new act of incorporation passed, and all former acts repealed. The first Election to be held on the first Monday in June, 1822; all subsequent Elections to be on the first Monday in May.

1826, APRIL 11.—The act of incorporation *amended*. The boundaries of the village surveyed; trustees authorized to license inns or taverns, &c. The village declared to be a road district, and the trustees to be commissioners and overseers of roads and highways. Land office commissioners of the state authorized to convey to the trustees the land under the waters in Lake Erie occupied by the wharves and pier, then or thereafter to be erected on the north line of Buffalo Creek, the land formerly occupied by the old channel of the creek, or any lands created or reclaimed.

1832, APRIL 20.—The City of Buffalo incorporated. All former acts relative to the incorporation of the village of Buffalo, except the 6th section of the act of 11th of April, 1826, repealed; the power, right and authority contained in that section in favor of the trustees of the village of Buffalo, transferred, as they then existed, to the Common Council of the City.

BOUNDARIES OF THE SEVERAL CITY WARDS.

The City is divided into five wards, as follows, to wit: all that part of the City which lies south and east of the following lines, to wit:—

POLICE OFFICE, AND POLICE COURTS.

JAMES L. BARTON, ESQ. POLICE JUSTICE.

This office, for the transaction of criminal business, is located on the corner of Terrace and Pearl streets, directly over the west end of the market.

The appointment of a Police Justice in and for the city of Buffalo, has had a salutary effect in preserving the peace and morals of the place.

Since the appointment of his honor, James L. Barton, as Police Justice, crime has greatly diminished, and the time and expense heretofore attending the trial and disposal of prisoners greatly lessened and facilitated. The

jurisdiction of the Police Justice is co-extensive with the county of Erie, and all criminal processes issued by Justices of the peace in the city are made returnable before him.

All courts of special sessions are held at the Police Office; by a Statuary provision the Judges of the county courts, Justices of the peace, and Aldermen of the city, are empowered to associate with the police Justice in forming such court, over which court the police Justice presides, and determines such case as comes within his jurisdiction.

BUFFALO POST OFFICE—MAILS.

The Post Office is situated on the corner of Washington and Seneca streets, in the Old Baptist Church. O. H. DIBBLE, P. M.—H. CASE, Ass't. P. M. There are 66 mails per week received at, made up and despatched from the Post Office in this city.

The first mail received here, was in March, 1803, on horseback. It was conveyed from the east once in two weeks in this manner, until 1805. A weekly route was then established, and continued until 1809. In 1810, the mode of conveyance was changed, and a stage wagon was used. As the country advanced in improvements, the route was changed to twice and three times a week, and subsequently to a daily route, in post coaches.

The amount of postages on letters received for distribution at this Office, is at this time, \$40,000 per quarter. The amount of letters received for this city, and delivered here, is \$5,900; which, together with the amount charged on letters mailed here by our own merchants and other business men, &c., makes the amount of business annually, *over two hundred and nineteen thousand and one hundred dollars.*

☞ If an abatement of letter postage be claimed, the letter must be opened in the presence of the post master or one of his assistants, and if such letter should, instead

of being over charged, happen to be undercharged, the deficiency must be made up by the applicant.

The following rates of postage are charged, conformably to an act of Congress :

On Single Letters.

For any distance not exceeding 30 miles,	6 cts.
over 30, and not over 80 miles,	10 "
over 80, and not over 150 miles,	12 $\frac{1}{2}$ "
over 150, and not over 400 miles,	18 $\frac{3}{4}$ "
over 400 miles,	25 "

Double Letters, or those composed of two pieces of paper, double those rates, and so on in proportion.

Ship Letters not carried by mail, are chargeable with 6 cts.

Newspapers.—Each paper carried not over one hundred miles, 1 "
over 100, and out of the state, 1 $\frac{1}{2}$ "

Periodical Magazines and Pamphlets are rated by the sheet. Carried not over 100 miles, per sheet, 1 $\frac{1}{2}$ "
over 100 miles, 2 $\frac{1}{2}$ "

Not Periodical, not over 100 miles, pr. sheet, 4 "
over 100 miles, 6 "

Newspapers to be forwarded by mail, should be enclosed in a cover, and left open at one end. If a letter or memorandum in writing, is contained in any newspaper, the person who deposits the same, forfeits five dollars, and the package becomes liable to letter postage.

Letters sent by mail, should be addressed to their places of destination in the clearest manner possible. A punctual attendance to this rule, may prevent *delays* and *miscarriage*.

William Williams,	

STEAM BOATS ON LAKE ERIE.

Navigation by the aid of steam was commenced on Lake Erie about nineteen years since. The first Steam Boat was built at Black Rock in 1818, and commenced running the same season. She bore the significant name of the *Walk-in-the-Water*. The novelty of the sight, as she made her first trip through the Lake, excited a great degree of interest and curiosity among the people who lived upon the shores, especially among the native In-

dians, who were ignorant of the power and application of steam, and stood gazing with astonishment to see such "a thing of life" moving through the water without the aid of oars or sail.

The experiment was successful, and it was found that this lake could be navigated by steam boats in safety and to advantage. This boat, however, was lost in 1822 in a severe storm, being driven ashore a few miles above this city and wrecked. There were about three hundred passengers on board at the time, and all escaped in safety. The navigation of the lake at that period, was far more difficult and dangerous for any craft than at present, on account of the want of harbours, and the unimproved condition of those landing places where vessels were accustomed to stop, and which have since become good harbors.

The *Superior* was built immediately after the loss of the *Walk-in-the-water*, and commenced running the same season. The engine and some other parts which were saved from the wreck, were used in the new boat, which proved to be better adapted to the lake than her predecessor. In 1827 she underwent thorough repairs and received new boilers, and continued to perform her regular trips until 1834, when she was laid aside. Her engine, being the same that was in the *Walk-in-the-water*, and the first that was put in motion on the lake, has been transferred during the past season, to a new and splendid boat, and continues to operate well after being in use 19 years.

BUFFALO APPRENTICES' SOCIETY.

This Association was organized in the winter of 1834. The object of this Association is mutual improvement, and the general dissemination of knowledge. The Society at present is in a prosperous condition, and bids fair to become an ornament to the city. Debates are held once a week, when interesting and popular subjects are discussed. There is also connected with this institution a well stocked library, containing about 600 vol-

umes, and preparations are about being made to increase the number. Apprentices generally, will find this an interesting and useful resort for their leisure hours, where they will have an opportunity of improving their minds, and greatly add to their morals.

BUFFALO LIGHT HOUSE.

DIMENSIONS.—*The Light House.*—Foundation 30 feet in diameter, 4 feet thick and 9 feet high. Height of the Tower above the foundation, 44 feet. Diameter of the Tower at the base, 26 feet. Diameter of the Tower at the top, 12 feet. Thickness of walls at the base, 4 feet. Thickness of walls at the top, 2 feet. *Molehead;* on which the Tower stands. Depth below the water, 15 feet. Diameter at the base, 160 feet. *Stone Mole*—extending from the main land to the Molehead. Length 1,500 feet. Height from the water to the landing or tow path, 5 feet. Height from the landing to summit, 12 feet. Width of the landing or tow-path, 21 feet.

EAGLE STREET THEATRE.

A. BRISBRANE, Proprietor.	W. ABBOTT &	} Managers.
CHA'S MELTON, Treasurer.	W. H. LATHAM,	
Wm. ABBOTT, Lessee.	- - - - -	

Change makes change, and it is gratifying to observe that that which has occurred relative to this elegant Temple of refinement, since last season, is, if possible, for the better. To mention the name of Mr. Abbott is a sufficient guarantee for the respectability of any concern over which he may preside, and a no less powerful argument for patronage, while his well known long experience, and that of Mr. Latham, in the business of management, raise no illfounded anticipations of a season as brilliant and successful as an unsurpassed Stock Company, aided by two such towers of dramatic strength as its leaders and a constant succession of Stars cannot fail to insure.

EXPLANATIONS.

Throughout this Directory, the christian names of those where there are more than one of the same surname, are alphabetically arranged. The firms are always placed at the last of those of the same name; when females are known to be widows, they are so designated, and placed immediately preceding the firms in correct arrangement; and a scrupulously strict alphabetical arrangement, (carefully conformable to the correct spelling of the name,) is observed throughout the work.

In searching for a name, the inquirer must know the proper spelling—for instance, if Baley is sought, not look for *Bailey*; for Schneider, not look for *Snyder*; for Schmidt, not look for *Smith*—and *vice versa*.

The words *street*, *store*, *office*, and the prepositions *of*, *at*, *with*, &c. are not expressed, but understood—the place of business is placed first.

ABBREVIATIONS.—h. stands for *house*—c. *corner*—bd. *board or boards*—ab. *above*—bl. *below*—bet. *between*—e. *east*—w. *west*—n. *north*—s. *south*—op. *opposite*—lab. *laborer*—cab. *cabinet*—wid. *widow*, &c.

By a reference to the list of streets on the 25th page, the abbreviation of their names will be understood.
